

8 Things You Need To Know About Mitt Romney

1. **OBAMACARE = ROMNEYCARE:**

Mitt Romney used Massachusetts government powers to force individuals to purchase signature government-run health care with a dismal track record of bad

service and high cost. In May 2009, Romney cited his health care program as one of his “best ideas.” The RomneyCare health care plan formed the basis for Obama’s Socialist ObamaCare health care “reform.”

2. **TAXES:** As the Governor of Massachusetts, Romney raised “fees” (taxes) by nearly \$730 million a year. In 2007, at a campaign event in Iowa, Romney called flat taxes “unfair.” Flat taxes unfair? Only a socialist would say that some should pay more than others to even the playing field. Second plank of The Communist Manifesto.

3. **SOCIALIST ECONOMIC STIMULUS & FINANCIAL SERVICES BAILOUT:** Romney supported the Troubled Asset Relief Program (TARP), and still does today. Intervention in the economy is contradictory to conservative principles. Conservatives favor small, limited, Constitutional government. In September 2008, Romney told Michigan residents at an event there that the financial services bailout was absolutely necessary. As of October 2011, Romney’s top three contributors to his presidential campaign are Goldman Sachs, Credit Suisse and Morgan Stanley.

4. **COUNCIL ON FOREIGN RELATIONS (CFR):** 13 of the 23 Special Advisers Mitt Romney selected for his Foreign Policy and National Security Advisory Team are members of the CFR. At least 56% of Romney’s special advisors are members of an organization whose leadership has made no secret of their socialistic-communistic agenda.

5. **RIGHT TO LIFE:** In 2002, during Romney’s campaign for Governor of Massachusetts, he pledged to “preserve and protect” a woman’s right to choose (abortion). Flip-flopping, he now claims to be staunchly pro-life.

6. **IRAQ WAR:** Romney supports the war in Iraq and issued a scathing rebuke of President Obama’s decision to withdraw all U.S. troops from Iraq by the end of 2011.

7. **CLIMATE CHANGE & CARBON TAXES:** Mitt Romney thinks humans are causing the earth to heat up and thinks carbon taxes are a good thing. In June 2011, he pandered to a New Hampshire crowd that he thinks man has contributed to climate change and urged a reduction of greenhouse gases, saying “*I believe the world is getting warmer, and I believe that humans have contributed to that. It’s important for us to reduce our emissions of pollutants and greenhouse gases that may be significant contributors.*” In 2004, as Governor of Massachusetts, Romney introduced the Massachusetts Climate Protection Plan, a package of policies that acknowledged the existence of anthropogenic global warming. When crafting the legislation, he sought advice from White House science czar and eugenics-pusher John P. Holdren. In Romney’s book “No Apologies” he calls for ‘carbon taxes’ to be assessed on fossil fuels. Second law of socialism, group people together with fear and socialistic solutions.

8. **SECOND AMENDMENT:** In 1994, Mitt favored strong gun control laws. First rule of socialism, disarm the general populous.

The evidence is overwhelming that Romney’s business experience did not help him govern as a conservative when in fact, he governed Massachusetts as a big government, anti-family liberal. His flip-flops on numerous foundational issues shortly before he became a presidential candidate causes us to question his sincerity, and his suspect “conversion” to the pro-life view has been undermined by the numerous pro-abortion actions taken after his alleged epiphany.
